

# Reflection questions

Question #1: Can you think of people in your community who would offer valuable partnerships and be honored to be involved with your clinic?

Question #2: What recon work do you believe would be most valuable in setting a strong foundation for your environmental scan?

Question #3: Does your environmental scan align with your vision for your clinic and how you intend for it to impact your community?

Question #4: Does your business plan constitute a strong case for your clinic's success or does it suggest challenges to the clinic's development?
