

Clinpro 5000

High fluoride toothpaste that protects teeth from cavities and helps with sensitivity!

How to use:

Nighttime only

1. Brush two minutes with normal toothpaste, floss, then use Clinpro!

2. Place a pea-size amount on your toothbrush. Do not wet the toothbrush.

3. Thoroughly brush teeth with Clinpro. Swish and Spit! No rinsing or drinking!

4. No food or drinks for 30 minutes!
